### Vice Chancellor's Message

November 14<sup>th</sup> is the Birthday of Chacha Nehru and the day is dedicated to the children. Nehru had a special love for children and rightly so. Children are gifts to us given by God the creator. They come in different wrappers. Some come in beautiful and attractive wrappers, while some others come in ordinary. Some children are loosely wrapped while others tightly.

We, in Jiwaji University, value every student child as a priceless gift from God wrapped in different and variety of wrappers. We come across some gifts which have been mishandled in the 'mail'. Some gifts (students) are very easy to open up, while others need to be helped out of their boxes. The reason I guess, is perhaps that they are afraid or shy due to the environment in which they were wrapped. maybe they have been opened up before and thrown away. Therefore, I feel in the modern society we educators and formators need to be skilled to open the various and diverse kinds of gifts that God has placed in our hands.

As the Vice-Chancellor, I wish for you to know that I am here for your success. You are in many ways the heart of Jiwaji University, the very reason the institution exists at all. Your success is our proudest offering to the world. I hope to create relationships with you all that will be mutually respectful and supportive, and that we will challenge each other to improve ourselves and the university.

Jiwaji University aims at emerging as the leading center of comprehensive learning at the international level. There are a number of features that make Jiwaji University unique in itself. University consisting of different schools of study that may later be developed into specialized centers of studies in different disciplines. Most of the courses offered at our University are unique and they have been streamlined to meet the emerging demands both in the public and the private sector.

As a first step towards our aim, we have launched a **Mobile application** for all the students. The app is available on Google Play Store, Download the app to get the Exam notifications, Results & University updates on your smart phone. Feedback is very vital for every organization, get in touch with University. I will personally ensure the resolution to your issues. (App Name: **Jiwaji University**, Developed by Micropro)

I wish you all the very best for a productive and stimulating year ahead. I believe in you and your ability to achieve. Your success is my success. I can't wait to see what you accomplish. Keep working, keep striving for better.

(Prof. Sangeeta Shukla)
