Introduction-

Jiwaji University was established as a teaching and affiliating University on 23rd May 1964, under the provision of M. P. Government Ordinance no. 15 of 1963. Dr. Sarwapalli Radha krishanan, the then President of India, laid the foundation stone of the University Campus on 11th December 1964.

Right from its inception, Jiwaji University started with a status of a residential and an affiliating University. The territorial jurisdiction of the affiliation extends to six districts of Gwalior and Chambal Division, viz., Gwalior, Morena, Bhind, Guna, Shivpuri and Datia. To begin with, the University had a total of 29 affiliated colleges. Those have steadily increased to more than 100 colleges. Till date 26 Government and 7 non-Government colleges impart teaching up to postgraduate level. Some of the colleges have also developed into recognized research centers.

About Department-

School of Studies in Library and Information Science was established in the University in 1984 to impart quality education and modern skills in the field to the students of the region leading to Bachelor's Degree in Library and Information Science and Master Degree in Library and Information Science. The Department is extensively engaged in teaching, research and career guidance too. The majority of the pass outs from the department have occupied good positions throughout the country. In the new millennium, the department is planning to establish a highly efficient computerized information system in the University. This job oriented course has been modernized with use of the latest equipment in teaching and training at degree, post graduate and research level.

Objectives-

The goal of the conference is to bring together librarians, information engineers, educators as well as experts and professionals in other related fields, from India, not only to exchange ideas and share research findings about web based learning but also **juxtapose knowledge** generation and development through various information management processes and associated technologies.

The specific objectives of the conference are:

- ❖ To create awareness among the library and information science professionals on the latest developments in library and information services.

- ❖ To explore the emerging technologies for delivering quality and value added services.
- ❖ To offer an opportunity to put forth innovative ideas, through debates and discussion for closer cooperation and development among library and information professionals.
- ❖ To strengthen the academic collaborations and strategic alliances for the development of digital libraries.
- ❖ To facilitate interaction with experts in order to bridge the knowledge gap between developing and the developed countries.
