# M.Phil. (Sociology) 101: Research Methodology

**Max. Marks** : 100  
**External** : 60  
**Internal** : 40

- Unit-I**                    **Introduction & Research Problem**  
Meaning, Nature and Types of Research, Research Process, Meaning, Identification, Selection and Formulation of Research Problem. Sources of Research Problem. Objectivity in Social Research.
- Unit-II**                    **Research Design**  
Meaning of Research Design, Need for Research Design, Features of a good Research Design, Types of Research Designs - Exploratory, Descriptive, Experimental and Diagnostic: Hypothesis: Concept, Sources and Types, Formulation of Hypothesis.
- Unit-III**                    **Tools and Techniques of Data Collection**  
Concept and Sources of Primary Data and Secondary Data, and its uses in Research, Questionnaires, Interviews, and surveys, observation. Content Analysis and Measurement Scales, Techniques of Developing Scales, Reliability and Validity of scale.
- Unit-IV**                    **Testing of Hypothesis**  
Data Analysis using Statistical packages, Hypothesis Testing- Parametric and Non-Parametric Test, Use of Parametric and Non-Parametric Test in Research.
- Unit-V**                    **Research Report**  
Types of Reports, Characteristics of a Research Report, Formulation of Research Report, Lay out of Research Report, Utility and Limitations of Research Report, Footnote, Reference and Bibliography.

# M.Phil. (Sociology) 102: Computer Applications

**Max. Marks** : 100  
**External** : 60  
**Internal** : 40

- Unit-I**                      **Introduction to Computers**  
Computer Terminology and Basics; Computer Hardware and Software, Block Diagram of Computers: Input Devices- Keyboard, Mouse, Touch Screen, Output Devices-Printer and its Types, Scanner, Computer Memories, Central Processing Unit, Types of Computer, Types of Software, Some basic terms related to Windows Operating System. Exploring various Websites and Search Engines for collecting quality literature and Secondary data related to research work.
- Unit-II**                      **Preparation of a Document using MS-Word**  
Some basic terms - toolbar, format bar, status bar, features and applications related to presentation of text in suitable format and saving the data for future applications. Practical knowledge MS Word to type the script, insert tables, figures and graphs to prepare thesis and research papers in presentable format.
- Unit-III**                      **Research Publishing Tool**  
MS Word: Crating, Editing and Saving a word document, Creating a resse4arch paper. Use of Auto-Text, Auto Correct, Spelling and Grammer Tool, Creating a cover letter, table related operation, adding graphics, mail merge.
- Unit-IV**                      **MS Excel**  
Introduction to fields, records and data base file, construction of spreadsheets from the data, design and application of formulate for calculations and their applications to the experimental data. Use of stastical tools, preparation of graphs, histograms charts and diagrams.
- Unit-V**                      **M.S. Power Point Slides And Poster Preparation**  
Preparation of Power Point Presentations based on the topic of research. What to include and what not to include in slide. How to begin preparing slides, Master Slide, Insertion of figures, graphs, charts in presentation. Uses of various, presentation techniques, inserting new slide and deleting any slide, design, animation, slide show.  
Preparation of scientific posters using MS publisher: Fixing size of the poster, dividing area into different boxes. Inserting text, figure and table in different boxes.
