Dr. D.C. Tiwari has done M.Sc. Physics in 1972 from Jiwaji University Gwalior. Consequently he was awarded Ph.D. in Physics from BITS Pilani in 1977 for his work on Plasma Physics. In continuation he worked as senior research fellow at CEERI, Pilani. In 1977, he joined Jiwaji University as Lecturer in School of Studies in Physics. In 1985, he was awarded DAAD fellowship for two years to work on Plasma Physics in Darmstadt, West Germany. After coming back from Darmstadt, he became Reader in 1987 in School of Studies in Physics. Presently he is working as professor of Physics. and coordinator of Electronics.

Dr. Tiwari is a member of various scientific bodies / societies viz. Indian Physics Association, Indian association for physics teachers and IAEET. His current area of research is “Preparation of conducting polymer thin films through plasma polymerisation”. He has published over 50 research papers in various national and International journals and presented more than 100 research papers in seminars / symposium / conferences. He has completed various research projects funded by UGC, DST, DAE and MPCOST. His academic dynamism is well known through his involvement in various in various scientific gatherings, research committees and evaluation boards. He has contributed in the preparation of the course for undergraduate and Post-graduate level.
