

Training & Placement

The first 5 batches (48 students) passed out in July 2003, July 2004 and July 2005, respectively. Of these 48 students, 30 have been able to get placement in leading Neuroscience Laboratories of the country through the selection procedures of the respective Institutes they are in. Two students have cleared the CSIR-UGC NET, one in BET and most have qualified the GATE with very good percentiles. Many of the students have appeared in the NET examination the result of which is awaited. The placement details are as follows:

Available Facilities at the School

Books and Journals

We have more than 650 books available on Neuroscience and allied areas.

Equipments

Leica Fluorescence Microscope	Lab Standard stereotaxic apparatus
Leica Image Analysis System	Stoelting Motorized Nano-injector
Leica Stereozoom microscope	Shimadzu UV-Vis Spectrophotometer
Leica Table Top Cryostat	Olympus Drawing Microscope
Leica Automatic Vibratome	Olympus Research Microscope
Leica Microtome	INCO Stereotaxic Apparatus
Eppendorf Thermalcycler (PCR)	Weswox Rotary Microtome
Eppendorf Minispin plus	Spencer Sliding Microtome
Heraeus Ultra Low Temp. Deep Freezer	Biotech Electrophoresis set-up
Columbus Animal activity monitor	Laboratory microscopes
Columbus Grip strength meter	Systronics digital Spectrophotometer
Columbus Rota-rod treadmills	Laminar flow bench
Columbus Analgesia tail flick instrument	Incubator cum Orbital Shaker
Biopac Electrophysiological setup	Other minor equipments
